We have developed an offline feedback mechanism. Two separate committees are formed for the collection of feedback and analysis of the feedback. We prepared five types of feedback forms such as -

- The first Questionnaire is feedback from students on the course. The students are rated the courses by using the four-point rating as Very Good, Good, satisfactory, and unsatisfactory. The six attributes of this questionnaire are 1 depth of course 2-extent of coverage, of course, 3- applicability/relevance to real-life situations, 4-learning value, 5-clarity and relevance of textual reading material, 6- relevance of additional source material (Library), and 7- the extent of effort required by students.

The overall feedback analysis results on course and teachers are summarized department-wise.
- Forth questionnaire is feedback from parents on the course and program SWOC

analysis. The members of the feedback committee distributed the prescribed forms of questionnaire 1 to 5 among the students class-wise.

- Fifth questionnaire is feedback from alumni on the course and program SWOC analysis.
- Also the feedback from employer is collected as and when the management visits during the internal academic and administrative audit.

The filled questionnaire is collected from the students by the feedback committee and tabulated data. The collected data in the form statement is sent to the Feedback analysis committee for final analysis. Committee analyses data by using MS Excel in the R D unit of our college. It is checked by the R D unit and generates the final report of Feedback analysis for that academic year. The same report is forward to IQAC for monitoring and referred by the principal. The Feedback analysis report is discussed in the IQAC meeting. IQAC forwards the Feedback analysis report to the CDC (LMC). The decisions made by the CDC (LMC) are prepared in the form of ATR and respective faculties get informed for further academic improvements if any. The report along with ATR is displayed

The feedback collected is analyzed and sent it to the respective authorities for the actions.
