Career Counselling Report

Academic Year (2016- 2017)

The guidance and counseling of students about their career is an integral component of the educational mission of the college. We help the students to choose a field i.e. in tune with their skills and their job expectations. Thus with the help of career counseling most students end up choosing the right career and perform their level best, which ultimately helps them succeed.

Students have a lot of decisions to make while they are in college. The biggest decision is that any college student needs to make revolves around what to do after college. A large number of students today choose to pursue a post graduate course after college. Our B. Sc. Students having physics as one of the optional subject do M. Sc. in Physics. We advise the students about what is better to pursue the post graduate course straight after college or after gaining a few years of work experience.

Personal Counselling Report

Academic Year (2016- 2017)

New comers require counselling because our college premises are different for them. We provide counselling to such students for selecting subject group for admission to B. A. I. The subject and syllabus at the college level are known to the new students. So we assist them to choose the subject. After admission we provide a confidential service for students who are dealing with temporary life difficulties such as homesickness, serious illness, death of a family member, academic or financial stress etc. The aim of counseling is to facilitate a timely return to normal functioning.

We also help them who identify and understand the challenges they are facing recognize their impact on their life and develop strategies to cope with them. Counselling provides them with a safe space to develop skills and explore new perspectives as well as increase their awareness and build rigidity.

Personal Counselling Report

New comers require counselling because our college premises are different for them. We provide counselling to such students for selecting subject group for admission to B. Sc. I. The subject and syllabus at the college level are known to the new students. So we assist them to choose the subject. After admission we provide a confidential service for students who are dealing with temporary life difficulties such as homesickness, serious illness, death of a family member, academic or financial stress etc. The aim of counseling is to facilitate a timely return to normal functioning.

We also help them who identify and understand the challenges they are facing recognize their impact on their life and develop strategies to cope with them. Counselling provides them with a safe space to develop skills and explore new perspectives as well as increase their awareness and build rigidity.

Career Counselling Report

Academic Year (2017- 2018)

The guidance and counseling of students about their career is an integral component of the educational mission of the college. We help the students to choose a field i.e. in tune with their skills and their job expectations. Thus with the help of career counseling most students end up choosing the right career and perform their level best, which ultimately helps them succeed.

Students have a lot of decisions to make while they are in college. The biggest decision is that any college student needs to make revolves around what to do after college. A large number of students today choose to pursue a post graduate course after college. Our B. Sc. Students having physics as one of the optional subject do M. Sc. in Physics. We advise the students about what is better to pursue the post graduate course straight after college or after gaining a few years of work experience.

त्याच बरोबर पदवी उत्तीर्ण विद्यार्थ्यांना सधर वैयक्तिक मार्गदर्शनामध्ये विविध स्पर्धा परीक्षा मध्ये समाजशास्त्राचे महत्त्व, उपलब्ध संधी, संशोधनाची आवड, समाजकार्याची संधी, 5. वाबीचे मार्गदर्शन करण्यात आल्यामुळे एम.ए. समाजशास्त्र करणाऱ्यांसाठी अनेक विद्यार्थ्यांनी प्रतिसाद दिले.

यासाठी समाजशास्त्र विभागाचे विभागप्रमुख प्रा. प्रदीप पाटील, प्रा. अनिल जाडेकर प्रा. सुमित्रा वाधमोर यांचे मोठ्याने मार्गदर्शन व सहकार्य लाभले. यात सहभागी झालेल्या विद्यार्थ्यांची यादी खालील प्रमाणे आहे.

SHRI CHHATRAPATI SHIVAJI COLLEGE, OMERGA

Dept of Geography Career Counselling Report

Academic Year (2017- 2018)

The guidance and counseling of students about their career is an integral component of the educational mission of the college. We help the students to choose a field i.e. in tune with their skills and their job expectations. Thus with the help of career counseling most students end up choosing the right career and perform their level best, which ultimately helps them succeed.

Students have a lot of decisions to make while they are in college. The biggest decision is that any college student needs to make revolves around what to do after college. A large number of students today choose to pursue a post graduate course after college. Our B. A. Students having Geography as one of the optional subject do M. A. in Geography. We advise the students about what is better to pursue the post graduate course straight after college or after gaining a few years of work experience.

Personal Counselling Report

Academic Year (2017- 2018)

New comers require counselling because our college premises are different for them. We provide counselling to such students for selecting subject group for admission to B. A. I. The subject and syllabus at the college level are known to the new students. So we assist them to choose the subject. After admission we provide a confidential service for students who are dealing with temporary life difficulties such as homesickness, serious illness, death of a family member, academic or financial stress etc. The aim of counseling is to facilitate a timely return to normal functioning.

We also help them who identify and understand the challenges they are facing recognize their impact on their life and develop strategies to cope with them. Counselling provides them with a safe space to develop skills and explore new perspectives as well as increase their awareness and build rigidity.

The guidance and counseling of students about their career is an integral component of the educational mission of the college. We help the students to choose a field i.e. in tune with their skills and their job expectations. Thus with the help of career counseling most students end up choosing the right career and perform their level best, which ultimately helps them succeed.

Students have a lot of decisions to make while they are in college. The biggest decision is that any college student needs to make revolves around what to do after college. A large number of students today choose to pursue a post graduate course after college. Our B. Sc. Students having physics as one of the optional subject do M. Sc. in Physics. We advise the students about what is better to pursue the post graduate course straight after college or after gaining a few years of work experience.
